JULY 1999 VOLUME 143 NUMBER 1

Contents

SPECIAL ISSUE

Editorial 1

Research review Biotic and abiotic consequences of differences in leaf structure
V. P. Gutschick 3

Research review A mechanical perspective on foliage leaf form and function
K. J. Niklas 19

Research review Modelling leaf expansion in a fluctuating environment: are changes in specific leaf area a consequence of changes in expansion rate?
F. Tardieu, C. Granier and B. Muller 33

Specific leaf area in barley: individual leaves versus whole plants
S. Gunn, J. F. Farrar, B. E. Collis and M. Nason 45

Contribution of carbohydrate pools to the variations in leaf mass per area within a tomato plant
N. Bertin, M. Tchamitchian, P. Baldet, C. Devaux, B. Brunel and C. Gary 53

The relationship between leaf composition and morphology at elevated CO_2 concentrations
M. L. Roderick, S. L. Berry and I. R. Noble 63

Leaf structure and chemical composition as affected by elevated CO_2: genotypic responses of two perennial grasses
C. Roumet, G. Laurent and J. Roy 73

Profiles of photosynthetic oxygen-evolution within leaves of *Spinacia oleracea*
T. Han, T. Vogelmann and J. Nishio 83

Leaf anatomy enables more equal access to light and CO_2 between chloroplasts
J. R. Evans 93

Assessing leaf pigment content and activity with a reflectometer
J. A. Gamon and J. S. Surfus 105

Relationships between photosynthesis, nitrogen and leaf structure in 14 grass species and their dependence on the basis of expression
E. Garnier, J.-L. Salager, G. Laurent and L. Sonié 119

Leaf structure and specific leaf mass: the alpine desert plants of the Eastern Pamirs, Tadjikistan
V. I. Pyankov, A. V. Kondratchuk and B. Shipley 131

Research review Low-light carbon balance and shade tolerance in the seedlings of woody plants: do winter deciduous and broad-leaved evergreen species differ?
M. B. Walters and P. B. Reich 143

Specific leaf area and leaf dry matter content as alternative predictors of plant strategies
P. J. Wilson, K. Thompson and J. G. Hodgson 155

A comparison of specific leaf area, chemical composition and leaf construction costs of field plants from 15 habitats differing in productivity
H. Poorter and R. De Jong 163

Research review Leaf life span and nutrient resorption as determinants of plant nutrient conservation in temperate-arctic regions
R. L. Eckstein, P. S. Karlsson and M. Weih 177

Leaf structure and defence control litter decomposition rate across species and life forms in regional floras on two continents
J. H. C. Cornelissen, N. Pérez-Harguindeguy, S. Díaz, J. P. Grime, B. Marzano, M. Cabido, F. Vendramini and B. Cerabolini 191

Carbon gain in a multispecies canopy: the role of specific leaf area and phosphosynthetic nitrogen-use efficiency in the tragedy of the commons
F. Schieving and H. Poorter 201

Research review The functional significance of leaf structure: a search for generalizations
M. C. Press 213

AUGUST 1999 VOLUME 143 NUMBER 2

Contents

REVIEW

Tansley Review No. 105

Sucrose biosynthesis in C_4 plants
J. E. Lunn and R. T. Furbank 221

Books

The ecology and evolution of clonal plants • Large forest fires • Chemical fungal taxonomy • Plant pathology and plant pathogens 239

RESEARCH

Pollen-tube growth rate and seed-siring success among *Betula pendula* clones
H. L. Pasonen, P. Pulkkinen, M. Käpylä and A. Blom 243

Heavy-metal-induced proline accumulation and its role in ameliorating metal toxicity in *Chlorella vulgaris*
S. K. Mehta and J. P. Gaur 253

The spittlebug *Philaenus spumarius* feeds from mature xylem at the full hydraulic tension of the transpiration stream
M. Malone, R. Watson and J. Pritchard 261

A model of the effects of water stress on seed advancement and germination
H. R. Rowse, J. M. T. McKee and E. C. Higgs 273

Simultaneous collection of xylem sap from *Rhinanthus minor* and the hosts *Hordeum* and *Trifolium*: hydraulic properties, xylem sap composition and effects of attachment
W. E. Seel and W. D. Jeschke 281

Extraction of apoplastic sap from plant roots by centrifugation
Q. Yu, C. Tang, Z. Chen and J. Kuo 299

The response of sensitive and tolerant clones of *Populus tremuloides* to dynamic ozone exposure under controlled environmental conditions
S.-C. Yun and J. A. Laurence 305

Response of subterranean clover (*Trifolium subterraneum*) to ozone in relation to plant age and light conditions during exposure
E. Sild, H. Pleijel and G. Selldén 315

Effect of competition on the responses of grasses and legumes to elevated atmospheric CO_2 along a nitrogen gradient: differences between isolated plants, monocultures and multi-species mixtures
M.-L. Navas, E. Garnier, M. P. Austin and R. M. Gifford 323

The influence of atmospheric NH_3 on the apoplastic pH of green leaves: a non-invasive approach with pH-sensitive microelectrodes
S. Hanstein and H. H. Felle 333

Climatic determinants of budburst seasonality in four temperate-zone tree species
I. Chuine and P. Cour 339

Exploring the relationships between reflectance and anatomical and biochemical properties in *Quercus ilex* leaves
J. M. Ourcival, R. Joffre and S. Rambal 351

The importance of xylem constraints in the distribution of conifer species
T. Brodribb and R. S. Hill 365

Root architecture and biomass allocation of three range grasses in response to nonuniform supply of nutrients and shoot defoliation
J. T. Arredondo and D. A. Johnson 373

Mathematical modelling of morphogenesis in fungi: a key role for curvature compensation ('autotropism') in the local curvature distribution model
A. Meškauskas, L. N. Frazer and D. Moore 387

Spatial organization of the gravitropic response in plants: applicability of the revised local curvature distribution model to *Triticum aestivum* coleoptiles
A. Meškauskas, S. Jurkoniene and D. Moore 401

Mycorrhizal colonization of *Pinus muricata* from resistant propagules after a stand-replacing wildfire
J. Baar, T. R. Horton, A. M. Kretzer and T. D. Bruns 409

Androdioecy in the entomophilous tree *Fraxinus ornus* (Oleaceae)
B. Dommée, A. Geslot, J. D. Thompson, M. Reille and N. Denelle 419

SEPTEMBER 1999 VOLUME 143 NUMBER 3

Contents

REVIEW

Tansley Review No. 106

Cyclic nucleotides in higher plants: the enduring paradox
R. P. Newton, L. Roef, E. Witters and H. Van Onckelen 427

Books

The plant vacuole • Molecular systematics: DNA sequencing • Arabidopsis • Plant physiological ecology 457

RESEARCH

The expression of histone 2A in onion (*Allium cepa*) during the onset of dormancy, storage and emergence from dormancy
C. E. Carter, M. D. Partis and B. Thomas 461

Diurnal changes in xylem pressure of the hydrated resurrection plant *Myrothamnus flabellifolia*: evidence for lipid bodies in conducting xylem vessels
H. Schneider, F. Thürmer, J. J. Zhu, N. Wistuba, P. Gessner, K. Lindner, B. Herrmann, G. Zimmermann, W. Hartung, F.-W. Bentrup and U. Zimmermann 471

Drought resistance of *Quercus pubescens* as a function of root hydraulic conductance, xylem embolism and hydraulic architecture
A. Nardini and F. Pitt 485

The effect of abscisic acid on chlorophyll fluorescence in lichens under extreme water regimes
S. Dietz and W. Hartung 495

Varying the ratio of ^{15}N-labelled ammonium and nitrate-N supplied to creeping bent: effects on nitrogen absorption and assimilation, and plant growth
J. S. Bailey 503

Factors affecting soil acidification under legumes. III. Acid production by N_2-fixing legumes as influenced by nitrate supply
C. Tang, M. J. Unkovich and J. W. Bowden 513

Differential responses of grass and a dwarf shrub to long-term changes in soil microbial biomass C, N and P following factorial addition of NPK fertilizer, fungicide and labile carbon to a heath
A. Michelsen, E. Graglia, I. K. Schmidt, S. Jonasson, D. Sleep and C. Quarmby 523

Acquisition and allocation of resources in two waterlogging-tolerant grasses
G. Rubio and R. S. Lavado 539

Competition under high and low nutrient levels among three grassland species occupying different positions in a successional sequence
P. Schippers, I. Snoeijing and M. J. Kropff 547

Seasonal variation in heteroside concentrations of field-collected *Porphyra* species (Rhodophyta) from different biogeographic regions
U. Karsten 561

Infection time and density influence the response of sorghum to the parasitic angiosperm *Striga hermonthica*
A. L. Gurney, M. C. Press and J. D. Scholes 573

Endogenous polyamine content and metabolism in the ectomycorrhizal fungus *Paxillus involutus*
S. Fornalé, T. Sarjala and N. Bagni 581

Short-term phosphorus uptake rates in mycorrhizal and non-mycorrhizal roots of intact *Pinus sylvestris* seedlings
J. V. Colpaert, K. K. van Tichelen, J. A. van Assche and A. Van Laere 589

Index 599
